

# Chemical Hygiene Plan

## Table of Contents

### Preface

- ▶ Scope of the CHP
- ▶ Organization Chart

### Chapter 1—Reviewing OSHA’s Laboratory Standard

- ▶ Definitions of laboratory and other terms
- ▶ Additional regulations that apply to laboratories

### Chapter 2—Administering the Chemical Hygiene Plan

- ▶ Purpose of the CHP
- ▶ Responsibility the Chemical Safety Officer, Chemical Hygiene & Safety Committee, Lab Supervisors, etc.
- ▶ Recordkeeping and training requirements
- ▶ Medical consultations and examinations

### Chapter 3—Revisiting Laboratory Safety

- ▶ Safety Principles as described by “Prudent Practices in the Laboratory”
- ▶ Understanding OSHA Safety Signs, NFPA and HMIS Labeling Systems
- ▶ Preventing accidents and handling emergencies
- ▶ Physical Hazards in laboratory operations, i.e., cryogenics, centrifuges, fire/electrical, housekeeping

### Chapter 4—Implementing Effective Exposure Controls

- ▶ Explanation of ‘exposure’
- ▶ Engineering and Administrative Controls
- ▶ Hazard Communication
- ▶ Personal Protective Equipment
- ▶ Biological Hazards

### Chapter 5—Managing Hazardous Materials

- ▶ Procuring and storing hazardous materials
- ▶ Minimizing chemical storage
- ▶ Managing hazardous waste
- ▶ Minimizing laboratory waste

### Appendix A—Policy for Working After-Hours

### Appendix B—Hazardous Waste Disposal

### Appendix C—Lab Safety Training Forms

### Appendix D—Particularly Hazardous Substances (PHS)

### Appendix E—Common Standard/Safe Operating Procedures

### Appendix F—Laboratory-Specific Section
