GETTING STARTED WITH CHEMICALS

“Chemicals” is a chemical inventory management tool that allows users to quickly add chemicals to an inventory. Chemicals includes a library of chemicals that are referenced to populate chemical details, including hazards and first aid information.

The application is available as an application for phone, tablet and desktop.

EHS together with RSS will be offering HANDS ON TRAINING for the following dates:

**August 27, Tuesday**
10-11:00 am @ LIB121 Training
11:00- 12:00 noon –Laboratory Room (TBA) Hands On
