

## Laboratory Safety - Chemical Hygiene Plan (CHP)

- **Program Description:**

Cal/OSHA's Occupational Exposure to Hazardous Chemicals in Laboratories standard requires employers to develop and implement a Chemical Hygiene Plan (CHP).

A CHP is a written program which sets forth procedures, equipment, PPE, and work practices that are capable of protecting employees from the health hazards presented by hazardous chemicals used in that particular workplace.

- **FY 21-22 Update:**

The Chemical Hygiene Plan for the campus was reviewed and minor updates were made to the written plan. The CHP will be available on the EH&S website later in CY 23.
