Medical Waste Management Plan

- **Program Description:**
  Under the California Medical Waste Management Act, SFSU is a Large Quantity Generator (LQG) generating ≥ 200 pounds of medical waste per month and is required to implement procedures for handling, storing, treating, transporting, and disposing of medical waste.

  The plan has to be reviewed and updated annually.

- **FY 21-22 Update:**
  The plan was updated in FY 21-22
